Important Announcement for immediate release – TRaC Global

As a valued customer we wish to inform you of exciting changes within the TRaC Global Group.

With effect from 6th January 2009, Cape Engineering UK Limited will trade as TRaC Environmental and Analysis Limited a division of TRaC Global.

If you require further information regarding this development please contact stuart.brown@tracglobal.com.

Buying from TRaC Global

As all TRaC Global companies are individually part of the same group, all orders placed on Cape Engineering UK Limited prior to 6th January 2009 will be honoured under the new company name. There will be no need for your company to re-issue these orders.

Your primary contact at each location does of course remain the same.

TRaC Global Testing and Consultancy Services

As part of this announcement I would like to introduce you to the wider testing and consultancy services that TRaC Global offers across our 6 UKAS accredited sites in the UK:

- Electromagnetic Compatibility (EMC) Testing and Consultancy
- Environmental Testing and Consultancy
- Telecoms Testing and Consultancy
- Radio Testing and Consultancy
- CE Marking
- Safety Testing and Consultancy
- ATEX / DSEAR Testing and Consultancy
- Finite Element Analysis (FEA) Consultancy

Recent extensions to our UKAS testing schedules include:

- Lightning
- Combined Temperature, Altitude and Humidity testing
- DECT Testing

TRaC Global Approvals

As part of our testing and consultancy services TRaC Global are able to offer an extensive range of compliance approvals including recently being appointed as an NCB (National Certification Body) and CBTL (Certification Body Test Laboratory) by the IECEE, under what is more commonly known as the CB scheme.

TRaC Global is among a small number of Test Service providers recognised by the CAA as UKAS accredited EMC and Environmental test laboratories for aircraft components and systems.

TRaC Global via our Hull based TRaC Telecoms & Radio was granted Recognised Test House status by the ZigBee Alliance in October 2008.

TRaC Global's EMC and Environmental Centres of Excellence at Malvern and Warwick have extended their scope of registration to store and test explosives.

Outsource with TRaC Global

TRaC Global offer the opportunity to outsource your in-house test facilities or qualification requirements. TRaC already run similar services for Rolls-Royce, Hewlett Packard, Cobham, Raytheon and others.

Thank you for your custom to date we look forward to continuing our business relationship under our new company name.

Yours sincerely,

Mark H Heaven
CEO TRaC Global
